My only comment is as follows:-

At the very top & beginning of every song, the "Swara" notes position is shown duly placed in "boxed" compartment, as a visual-guidance to the respective "MEJAKARTA" ragas.

Side by side, the "technical-description" of each swara should also have been given in full, which could be incorporated in future editions, as, "CLARITY" in both spoken-words and printed-matters is a prime factor to be adopted, so as to help the listener or reader at every stage towards better & easier understanding.
